technologies

EDUCATION

Study Program

Sanjivani College Of Engineering, Kopargaon

07/2023 - Present

Kopargaon India

Course

▣ Computer Engineering

WORK EXPERIENCE

Fresher

Currently In college

ORGANIZATIONS

Member, College ACES Club

CERTIFICATES

Web Development – Udemy (2024)

Employment Communication Lab – NPTEL (2024)

PERSONAL PROJECTS

ATM Simulator (Java)

▣ Created a console-based ATM simulation using Java with features like deposit, withdrawal, and balance enquiry. Implemented OOP concepts and basic file handling.

Good Health and Well-Being Website

▣ Designed and developed a responsive website promoting health awareness aligned with UN SDG goals. Built using HTML, CSS, and JavaScript with interactive UI elements and informative sections.

IoT Smart Ventilation System

▣ Developed a smart ventilation prototype using IoT sensors (DHT11/Arduino/). The system automatically adjusts airflow based on temperature and air quality to ensure a healthy environment. Focused on energy efficiency and real-time monitoring.

ACHIEVEMENTS

Participated in college-level tech fests and coding contests

Demonstrated leadership and teamwork in group project

Actively involved in club activities and event coordination
